

Congratulations to our Spring Grant award winners! Jennifer Taunton will receive funding for her Eclectic Enrichment grant, which will serve both [Jones Elementary](#) and [Linda Childers Knapp Elementary](#) students, and Alex Lalonde has received funding for Digital Fabrication Tools for Geometry Exploration, which will serve 10th and 11th graders at [Har-Ber High School](#)! Both of these grants are incredibly unique, and will provide excellent learning opportunities to our students at Springdale Public Schools! We are so proud of these educators for their innovation and initiative, and are thrilled to take part in making their ideas a reality!
